ABOUT ME

Committed to developing innovative and efficient solutions that drive progress. Eager to apply my diverse technical skillset in high-impact environments to enhance productivity and organizational growth. With a strong desire for continuous learning and improvement, I am dedicated to contributing to strategic goals while continually expanding my practical expertise.

PROJECTS

Code Logic Validator

MAY 2026 - PRESENT

- Building an AI-powered educational agent that evaluates a beginner's problem-solving logic written in plain text without revealing actual code solutions.
- Developing a Spring Boot-based backend integrated with LLM APIs to assess reasoning, generate targeted hints, and guide learners through structured problem-solving workflows.
- Exploring prompt engineering, AI orchestration, REST API design, and scalable educational technology solutions.

Tech Stack: Java, Spring Boot, LLM APIs, REST APIs, MongoDB, Prompt Engineering

Techiegram

DEC 2025 – APR 2026

- Developing a web platform to share short technical video reels with features like user uploads, likes, and categorized content.
- Implementing frontend and backend functionalities to ensure smooth content delivery and user interaction.

Tech Stack: HTML/CSS, JavaScript, Java(Backend), REST APIs, Database(MongoDB)

SMART LEAF SCANNER

MAR 2025 - JUL 2025

- Developed a CNN-based Smart Leaf Scanner to detect and classify plant diseases from leaf images with high accuracy.
- Built an interactive web interface reducing prediction time to under 2 seconds and achieving over 96% model accuracy.

Tech Stack: Python, CNN, TensorFlow, OpenCV and Streamlit

CONTEXTKEY-LOGGER

AUG 2023 - JAN 2024

- Developed a Python-based keylogging tool using pynput to capture user keystrokes along with active window titles for contextual tracking and analysis.
- Implemented OS-level window detection (Windows) using ctypes to log keystrokes with associated application/window names, saving data securely to a file.

Tech Stack: Python, Pynput, ctypes, Windows API

ACADEMIC PROFILE

B.E – COMPUTER SCIENCE AND ENGINEERING

SEP 2023 – APR 2027

Currently pursuing a Bachelor's degree at **Dr. N.G.P. Institute of Technology, Coimbatore**, with a CGPA of **8.28** up to the 5th semester with no backlogs.

INTERNSHIPS

● GATEWAY SOFTWARE SOLUTIONS, Coimbatore, India (On-Site)

JUN 2025 - JUL 2025

- Gen AI, LLM's and Prototyping.
- Worked on Generative AI and LLM-based solutions, developing prototypes and experimenting with AI models for practical, real-world applications.

● COGNIFYZ TECHNOLOGIES, Nagpur, India (Remote)

SEP 2025 - OCT 2025

- Gained hands-on experience in Web Development and basic backend concepts during the internship.
- Built responsive and user-friendly web applications with front-end technologies and basic backend integration, emphasizing performance and usability.

AREA OF INTEREST

- Full Stack Development(MERN)
- Software Development & Application Design
- Generative-AI
- Data Structure & Algorithms

SKILLS

- Java
- Python(intermediate)
- Mongo-DB
- HTML, CSS & JavaScript
- PostgreSQL
- UI-UX design
- REST API(basics)
- Basic cloud & deployment concepts

CERTIFICATIONS & ACCREDITATIONS

- UI-UX design by Maiyyam
- Coding Premier League at Kumaraguru
- Ideathon at Bannari Amman Institute of Technology
- Workshop - Hands-on training in Research Directions on Missile guidance, Navigation & control using AI
- Learnathon - 2023 & 2024 organized by ICT Academy
- NPTEL - IOT & Cloud Computing

HOBBIES

- Video Editing
- Acting
- Dancing
- Photography
- Motorcycling

PERSONAL PROFILE

- **Date of Birth:** 25/01/2006
- **Languages Known:** Tamil, English
- **Core Qualities:** Leadership, Adaptable Technology Learner, Solution-Oriented Thinker, Independent Project Executor
- **Additional Trait:** Calm Under Pressure and fast-paced environments
