ABOUT ME

Committed to developing innovative and efficient solutions that drive progress. Eager to apply my diverse technical skill set in high-impact environments to enhance productivity and faster growth. With a strong desire for continuous learning and improvement, I am dedicated to contributing to strategic goals while continually expanding my practical expertise.

PROJECTS

- Code Logic Validator (In Development)** **MAY 2026 - PRESENT**
 - Building an AI agent that evaluates a beginner's problem-solving logic written in plain text, without revealing actual code solutions — designed for the SIH Education & Skilling domain.
 - Utilizes LLM-based orchestration to assess correctness, provide targeted hints, and guide learners through reasoning steps autonomously.
 - Explores prompt engineering, AI workflow design, and tool integration for educational AI applications.**Tech Stack:** Python, LLM APIs, Prompt Engineering
- Techiegram (In Development)** **MAR 2026 - PRESENT**
 - Developing a web platform to share short technical video reels with features like user uploads, likes, and categorized content.
 - Implementing frontend and backend functionalities to ensure smooth content delivery and user interaction.**Tech Stack:** HTML/CSS, JavaScript, Java(Backend), REST APIs, Database(MongoDB)
- SMART LEAF SCANNER** **MAR 2025 - JUL 2025**
 - Developed a cnn-based Smart Leaf Scanner to detect and classify plant diseases from leaf images with high accuracy.
 - Built an interactive web interface for real-time prediction and visualization.**Tech Stack:** Python, CNN, TensorFlow, OpenCV and Streamlit
- CONTEXTKEY-LOGGER** **AUG 2023 - JAN 2024**
 - Developed a Python-based keylogging tool using pynput to capture user keystrokes along with active window titles for contextual tracking and analysis.
 - Implemented OS-level window detection (Windows) using ctypes to log keystrokes with associated application/window names, saving data securely to a file.**Tech Stack:** Python, Pynput, ctypes, Windows API

ACADEMIC PROFILE

- B.E – COMPUTER SCIENCE AND ENGINEERING** **DEC 2025 - PRESENT**

Currently pursuing a Bachelor's degree at **Dr. N.G.P. Institute of Technology, Coimbatore**, with a CGPA of **8.28** up to the 5th semester with no backlogs.

INTERNSHIPS

- **GATEWAY SOFTWARE SOLUTIONS**, Coimbatore, India (On-Site) **JUN 2025 - JUL 2025**
 - Gen AI, LLM's and Prototyping.
 - Worked on Generative AI and LLM-based solutions, developing prototypes and experimenting with AI models for practical, real-world applications.
- **COGNIFYZ TECHNOLOGIES**, Nagpur, India (Remote) **SEP 2025 - OCT 2025**
 - Gained hands-on experience in Web Development and basic backend concepts during the internship.
 - Built responsive and user-friendly web applications with front-end technologies and basic backend integration, emphasizing performance and usability.

AREA OF INTEREST

- Full Stack Development(MERN)
- Software Development & Application Design
- Machine Learning & Computer Vision
- Data Structure & Algorithms

SKILLS

- Java
- Python
- Mongo-DB
- HTML, CSS & JavaScript
- Prompt Engineering
- PostgreSQL
- UI-UX design
- REST API(basics)
- Data Analysis
- Basic cloud & deployment concepts

CERTIFICATIONS & ACCREDITATIONS

- UI-UX design by Maiyyam
- Coding Premier League at Kumaraguru
- Ideathon at Bannari Amman Institute of Technology
- Workshop – Hands-on training in Research Directions on Missile guidance, Navigation & control using AI
- Learnathon-2023 & 2024 organized by ICT Academy
- NPTEL – IOT & Cloud Computing

HOBBIES

- Video Editing
- Acting
- Dancing
- Photography
- Motorcycling

PERSONAL PROFILE

- **Date of Birth:** 25/01/2006
- **Languages Known:** Tamil, English
- **Core Qualities:** Leadership, Adaptable Technology Learner, Solution-Oriented Thinker, Independent Project Executer
- **Additional Trait:** Calm Under Pressure and fast-paced environments
